BUDGET MANAGEMENT

Purpose: To establish and maintain practices for the adoption, administration, and amendment of the annual budget in accordance with Florida Statute Chapter 129.

Policy: To exercise the highest level of budgetary control per Florida Statute Chapter 129 with an emphasis on transparency to communicate the County's annual budget process from conception to finality including budget amendments and adjustments made throughout the fiscal year.

The Board of County Commissioners designates the County Manager to be the County Budget Officer pursuant to Florida Statute 129.025(1)

Procedure:

1. Revenues

- A.** The Office of Management and Budget (OMB) will estimate revenues as early as possible in the budget process in order to limit appropriation request. The Board of County Commissioners will establish the County's budget priorities based upon the revenue estimates and expenditure priorities.
- B.** The budget must be balanced, so that the total of the estimated receipts available from taxation and other sources, including balances brought forward from prior fiscal years, equals the total of appropriations for expenditures and reserves in accordance with Florida Statute Chapter 129.01(2)(c).
- C.** In general, current operating revenue should be sufficient to support current operating expenditures, with budget amendments and adjustments made to budgeted fund balance and/or appropriations if necessary.
- D.** "Earmarking" of available revenues that would unnecessarily restrict the full range of potential uses of such revenues will be limited. The use of various funds, however, will be consistent with generally accepted accounting principles and Florida Statute Chapter 129.02.

Law Enforcement will be funded 54% from the MSTU-LE taxes and 46% from the General County taxes.

State shared half-cent sales taxes that are in excess of debt obligation payments will be split 90% to the General Fund and 10% to the MSBU-Fire Fund.

Public Service Tax will be split 60% to the General Fund and 40% to the MSBU-Fire Fund.

Communications Service Tax will be split 40% to the General Fund, 40% to the MSBU-Fire Fund, and 20% to the Gas Tax Operational Fund.

- E. One-time revenues will be utilized to fund one-time expenditures wherever possible. If one-time revenues are assigned to pay for recurring expenditures a plan for transferring the expenditure to a recurring revenue source, upon depletion of the one-time revenue, will be identified by OMB and presented to the BOCC as a part of the decision.
- F. The Board of County Commissioners is authorized to establish and collect fees and charges for certain services rendered by the County. These services are available to all residents of the County but are not needed by the majority of residents, therefore, those utilizing the services are charged for the service.
 - I. All Proprietary Fees, payments for use of facilities and services, are to be reasonable in relation to the County provided privilege or service to the fee payer that receives the special benefit.
 - II. All Regulatory Fees, payments, whether designated as license fees, permit fees or by another name, which are required as an exercise of police power and as a part of or as an aid to regulation of an occupation, profession, or business, may not exceed the actual cost to the County of providing the service to the individual fee payer. Additionally, fees are solely based on the actual cost of providing what the user is consuming or are charged per direction from a regulatory authority.
 - III. All requested changes to the Schedule of Fees during the fiscal year are presented to the Board of County Commissioners for its review and approval.
 - IV. A fee schedule is therefore adopted and amended by resolution each fiscal year. Annually, fees will be reviewed by Departments, and any requested modifications will include the full cost of activities, including direct and indirect costs currently supported by the fees to identify the impact of inflation and other cost increases. Supporting documentation showing calculations for fees changed will be submitted by Departments as part of the annual budget process. Departments shall retain supporting

documentation for a period of two (2) years. A thorough review of the countywide fee schedule will be conducted periodically.

2. Expenditures

- A.** The financial impact associated with new programs or program modifications will be analyzed and determined prior to presentation to, and adoption by the Board. When new programs or increased levels of service are proposed, departments will identify any applicable Federal or State mandates; outline client benefits and strategic initiatives; demonstrate alignment to organizational goals, objectives, and agreements; identify related health and safety issues; demonstrate conformance to industry/professional standards; and identify all funding sources including fees or tax increases needed to partially or fully fund the program or service. The department will document any offsetting revenue or cost avoidance associated with this issue as well as consequences of not funding the proposal.
- B.** Understanding what a program or activity costs, and what benefits are derived from these programs or activities allows the County to make informed funding decisions. To that end, all expenditures will be analyzed to ensure service alignment with current Board priorities.
- C.** Departments shall utilize performance measures to track performance, support operational improvement, and determine effective use of resources for each program.
- D.** Inflationary factors, changes in population, and economic efficiency will be considered in preparing cost of service delivery.
- E.** Vehicle, computer, and equipment replacements will be reviewed and presented as part of the annual budget process. Departments, in conjunction with the Fleet division, are responsible for identifying necessary replacements and including these requests in their budget submissions. Approvals for replacements will be subject to budget availability and prioritized based on operational needs, lifecycle assessments, and cost-effectiveness. Funding for approved replacements will be allocated within each department's budget to ensure proper financial planning and accountability.
- F.** Vehicle/Fleet Replacement surplus sale proceeds, insurance claims, and investment income will be maintained within the applicable Fund to help offset future vehicle and equipment costs.
- G.** Internal Service Funds will be self-supporting whenever possible. Internal service fees and the direct impact to County operating budgets shall be analyzed annually as part of the budget process and will be budgeted centrally for all departments.

- H.** Grant applications to fund services/programs with state or federal funds will be recommended to the Board upon review by the Office of Management and Budget and the County Manager, with significant consideration given to:
- I.** The cost of administering the grant relative to the amount of the grant
 - II.** The availability of matching funds
 - III.** The extent to which locally generated funds will be required to support the program when the grant funding is no longer available.
 - IV.** The personnel impact to the department.
 - V.** Time is of the essence with grant applications and should an opportunity for an application submittal arise that does not coincide with established Board of County Commission meetings, the County Manager, or designee shall have authority to submit and sign the grant application and place the item on the next Board of County Commission agenda for an update.
 - VI.** All grant acceptance awards will be placed on Board of County Commission agendas for final approval.
