Irrigation Inspection - County Inspection

Irrigation Inspection - Self-Inspection

Irrigation Inspection - Temporary Removal

SUBMIT

Desired date of inspection is existing language that could not be changed or removed as it is used by other departments. **We will not be using desired date for our purposes**, but you will need to select a date in the future as it does not allow you to choose the current day.

Enter the installation completion date – this should be the actual date the project was completed. **Per code, you must notify the department within 14 days of completion.** This date will help us prioritize our inspections. **Projects will be inspected within 30 days of this notification.**

Inspection Type: Irrigation Inspection - County Inspection

Desired Date: 05/23/2023

Do not request an inspection until your project is complete. Staff will inspect the project within 30 days of completion notification.

Installation Completion Date: 05/22/2023

Notes: The homeowner has moved in and will not stop adjusting the controller settings despite training.

SUBMIT

There is a space for any Notes you may want to provide for staff. If there is a contact that you would like notified, in case we have questions in the field, this is a good place to include a contact name and phone number.

If self-inspecting, search for the inspector in the FWSAP list. Check the boxes for inspection verification, add notes if needed and click submit.

Inspection Type: Irrigation Inspection - Self-Inspection

Desired Date:

Do not request an inspection until your project is complete. Staff will inspect the project within 30 days of completion notification.

Inspection Information

Installation Completion Date: 05/22/2023

Passed Self-Inspection on: 05/22/2023

Inspector Name:

Inspection Checklist

- System is free of leaks
- Rain sensor correctly installed and active
- All design standards have been met

By submitting this form, I certify that I personally inspected the system and it has been designed and installed in accordance with code requirements

Notes:

SUBMIT

You will receive an email acknowledging receipt of the inspection request. Staff will inspect projects **within 30 days of notification** (this applies both to County Inspections and Random inspections of self-inspect projects). It is imperative that you notify us as soon as a project is complete so we can conduct our inspection in a timely manner. This protects you from being held accountable for issues created by others on the site.

ONLINE INSPECTION REQUEST RECEIVED

Your request for an inspection has been received.

IR23-000059

Inspection Type: Irrigation Inspection - County Inspection

Requested Date: 06/02/2023

Comments:

Address: 17478 NW 173RD RD

Project Description: Sherman Oaks Lot 17

[CLICK HERE TO VIEW YOUR FILES](#)

Once your project has been inspected, you will receive an email informing you of the inspection results.

If your project passed inspection, you are all set. The project will be closed and you will be able to find the project in the closed tab under My Account, permitting reviews, should you need to refer to it later. If a self-inspection project has not been selected for random inspection within 30 days after your inspection request has been submitted, the project will automatically be closed.

PHONE

This inspection report should be retained by the permit holder and available upon request.

[CLICK HERE TO VIEW YOUR APPLICATION](#)

If a project has failed inspection, the inspection results will list the # of days allowed to make the corrections, will indicate fees if there are any, and will list the reasons for the failure under inspection comments at the bottom. You can click on the application at the link on the bottom of the email or navigate through My Account to pay if there are any fees due.

If you complete the corrections before the due date and would like the system reinspected earlier, you can request an inspection to indicate the corrections have been made.
