Online Exams

Florida Water Star Accredited Professional Exams are available online immediately following class completion.

- Attend training and exams scheduled in Alachua County, Florida
- Learn about best practices for irrigation and landscape design to meet certification requirements.
- Learn about local codes for irrigation installation and design.
- Prepare for Florida Water Star Accredited Irrigation Professional and Florida Water Star Accredited Landscape Professional designation.

Training brought to you by the St. Johns River Water Management District, Alachua County Environmental Protection Department and the Florida Nursery, Growers and Landscape Association (FNGLA).

“Florida Water Star raises the bar with certification of landscape and irrigation professionals. I highly recommend this comprehensive course for all designers and contractors.”

— Judith Carney, President,
Clear Water Products and Services, Inc.

“The New Florida Water Star AP Certification is a must have designation to be considered a ‘green’ professional.”

— Aaron Smith, President,
Insight Irrigation, LLC
